## Edit/Add or Delete a Game

The screenshot shows the 'Edit a Game' screen with a status bar at the top (10:25 AM, Sun Aug 3, 100% battery). The screen has a title bar with 'Edit a Game' and buttons for 'Score' and 'Edit'. Below the title bar is a section titled 'Select a Game to score or swipe to delete'. It contains a table with columns: Game Date, Field, All Hit, Visiting, Home, and Score. The first row shows 'Aug 3, 2025', '10:25 AM', 'Field', 'False', 'Pick <', 'Pick <', and 'Not Played Yet'. The second row shows 'Jul 22, 2025 at 1:07 PM', 'PNC Park', 'False', 'Tigers', 'Pirates', and '0 to 0 No winner yet in the 1st'. Red arrows point from the text below to the 'Add a team' button, the 'Edit' button, and the second game entry.

| Game Date               | Field    | All Hit | Visiting | Home    | Score  |                          |
|-------------------------|----------|---------|----------|---------|--------|--------------------------|
| Aug 3, 2025             | 10:25 AM | Field   | False    | Pick <  | Pick < | Not Played Yet           |
| Jul 22, 2025 at 1:07 PM | PNC Park | False   | Tigers   | Pirates | 0 to 0 | No winner yet in the 1st |

To edit a game select an existing game or select the “Add” after selecting the date, time and teams from the drop downs. A new team can be created if it is not in the drop downs. The field name can be input. If this is a little league game where all players hit - indicate it here. An existing game can be deleted by swiping to the left. The list of Games can be sorted  to make finding the Games easier. The “Search Field” allow filtering the Games by date, location, home or visiting team.

## Edit an Existing or Newly Added Game

The screenshot shows the 'Edit a Game' screen with a status bar at the top (11:38 AM, Mon May 19, 100% battery). The screen has a title bar with 'Edit a Game' and buttons for 'Back' and 'Add home or visiting team'. Below the title bar is a section with form fields: Select Game Date, Field Name, Every One Hit, Innings per Game, Visiting Team, and Home Team. The first row shows 'May 19, 2025', '11:35 AM', 'Field', 'False', '9', 'Unknown Team <', and 'Unknown Team <'. Below the form fields is a section titled 'Highlights' with a green box containing the text 'Please input game highlights'. A red arrow points from the text below to the green box.

| Select Game Date | Field Name | Every One Hit | Innings per Game | Visiting Team | Home Team      |                |

Players can be copied from a file or the internet and pasted into the app. First, select a delimiter to separate each field (name, number, position, etc). The app assumes each player is separated by a “New Line” character. If a team for these players does not yet exist, it can be added from this Button. The app attempts to remove headers and extraneous information like “Jr.” or “Sr.”. See the example copy in the Appendix.

The example above copied the Twins roster from <https://www.cbssports.com/mlb/teams/MIN/minnesota-twins/roster/>. Selecting the whole roster on an iPad to copy it to the clipboard takes some practice. Once it is on the clipboard and the delimiter (a tab) is selected, hit the “Paste” button. Then select the team and identify where all the fields are in the pasted data using the row of light blue drop-downs across the center. The last step is to select “Add or Update Players” and the players will be populated or updated. See the example copy to the clipboard in the Appendix

An "Open in ScoreKeep" button will be at the top right of the screen which will send the file. The Players sent to be imported will be displayed on the left and can be removed by swiping from left to right on the player.

Players on the imported team currently in ScoreKeep (if any) will be display on the right. The search field will limit both displays. A choice of which set of Players (Imported or current) will be the main file (no non-blank fields overwritten) has to be selected. This will trigger the import. The imported players will then be added or updated on the recipients device and the Current Player list will be updated. The Current Players can be deleted, added, or edited which will be immediately reflected in the rest of the app.

From the list of players, select who will pitch. Then, if the pitcher is coming in, select from the “Start Inn” drop down the inning the pitching will start. If it is a relief pitcher, select how many outs there are from the “Start Outs” drop down and how many batters have hit in the inning from the “Start Bats” drop downs when the pitching started. If the pitcher is coming out, select from the “End Inn” drop down the inning the pitching will end. Then select how many outs there are from the “End Outs” drop down and how many batters have hit in the inning from the “End Bats” drop downs for when the pitching ended

**The “Start Inn” & “Start Outs” to “End Inn” & “End Outs” are used to calculate the number of inning pitched. The “Start Inn” & “Start Bats” to “End Inn” & “End Bats” are used to calculate Hits, Runs, Ks, etc.**

The list of pitchers can be sorted ↑↓ to make finding the player easier. Players can also be added + if they are not yet input.
